

How to View Section Boundaries

- Section Boundaries inside of a report section is important to see. It shows which areas contain the headers and footers for a page, for a report, and for a report group. This also allows you to easily align totals and text boxes. If Section Boundaries is active, there will be a check mark next to it. If not proceed with the following instructions.

Step 1:

- Go to Report and then <click> on Section Boundaries. It will not have a check mark by it. Once you <click> it you will see a check mark by it and the screen will look like the following:
